The following guide will walk you through connecting to the KSU Wi-Fi using an Android phone. Please note, Android phone layouts may differ by model.

**Note:** This guide was written using a Samsung Note 8 on Android version 9 Pie.

1. On the Home screen, swipe down from the top to display the *Settings* icon. (See Figure 1)
2. Tap the **gear icon** to access *Settings*. (See Figure 1)

![Figure 1 - Swipe Down from the Top of the Screen and Tap the Settings Icon](image)

3. The *Device Settings* will display. Tap *Connections*.

![Figure 2 - Tap Connections](image)
4. From the *Connections* menu, tap **Wi-Fi**.

![Figure 3 - Tap Wi-Fi](image)

5. Make sure Wi-Fi is turned on. (See Figure 4)

6. From the **Wi-Fi** menu, tap **KSU**. (See Figure 4)

![Figure 4 - Verify Wi-Fi is on and tap KSU Wi-Fi](image)
7. Enter your **NetID** and **NetID password**. (See Figure 5)
8. Tap **Connect**. (See Figure 5)

**Note:** If prompted, make sure that **CA certificate** is set to *Don’t Validate*.

![Figure 5 - Enter NetID and NetID password and Tap Connect](image)

9. Your device will now be connected to the KSU Wi-Fi.
