The following guide will walk you through connecting to the eduroam Wi-Fi using an Android phone. Please note, Android phone layouts may differ by model.

**Note:** This guide was written using a Pixel 2 on Android version 11.

1. On the Home screen, swipe down from the top to display device settings (See Figure 1).
2. From the menu, press and hold **Wi-Fi** to display available Wi-Fi connections (See Figure 1).

![Figure 1 - Swipe Down from the Top of the Screen and Tap the Wi-Fi Icon](image)

3. Make sure Wi-Fi is turned on (See Figure 2).
4. From the **Wi-Fi** menu, tap **eduroam** (See Figure 2).

![Figure 2 - Verify Wi-Fi is on and tap eduroam Wi-Fi](image)

5. The **eduroam Wi-Fi panel** will open. Here, you may:
   a. **Domain:** Type kennesaw.edu (See Figure 3).
   b. **Identity:** Enter your NetID and NetID password (See Figure 3).
   c. **Anonymous identity:** Enter your NetID (See Figure 3).
   d. **Password:** Enter your NetID password (See Figure 3).
6. Tap **Save** (See Figure 3).
**Note:** If prompted, make sure that **CA certificate** is set to *Don’t validate*.

7. Your device will now be connected to the eduroam Wi-Fi.
