

KSU Campus Network Access from a Mac

The following describes how to use the GlobalProtect agent to connect remotely to the campus network using a VPN connection. For information on installing the *GlobalProtect Agent* to utilize a VPN connection, please refer to our *VPN Client Installation for Mac* documentation.

Note: This guide was written using *Google Chrome* version 64.0.3282.119.

Establishing the VPN connection on the Off-Campus Mac

1. Connect to the *GlobalProtect VPN service* by clicking the **GlobalProtect** icon, located on the menu bar.

Figure 1 - GlobalProtect

2. Click **Connect**.

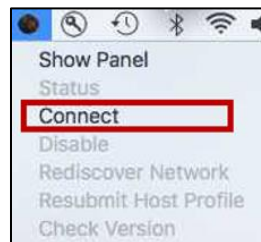

Figure 2 - Click Connect

3. The *Portal* field will populate with the VPN address entered previously. Enter your login credentials (e.g., **NetID** and **password**) (See Figure 3).
4. Click **Connect** (See Figure 3).

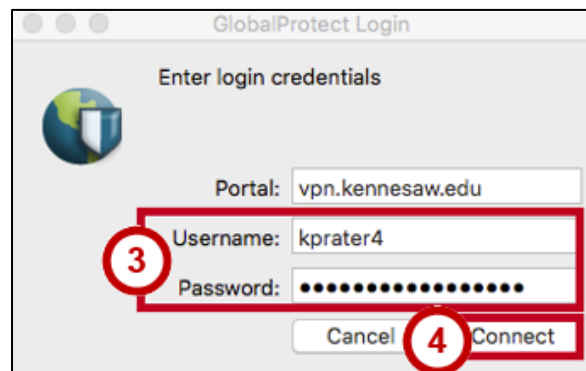

Figure 3 - Enter Login Credentials

5. When successfully connected, the *Status* indicator will change to **Connected**. You are now connected to the KSU campus network through the GlobalProtect VPN client.

Accessing Campus Services

Rather than connecting to your office computer, you may wish to use your browser to access commonly used KSU applications and services that can only be accessed while on the KSU network. The KSU VPN serves as an entry point. The following instructions describe how to access the *Campus Intranet* page.

To access the KSU Campus Intranet site, use the following steps:

Note: The Remote Desktop Connection is not needed to access the campus intranet as long as you are connected to the KSU VPN.

1. After connecting to the KSU VPN, open your **preferred browser** (i.e., Mozilla Firefox or Google Chrome).
2. Navigate to <https://campus.kennesaw.edu/>.
3. The *Campus Intranet* website will open. Click on the **link** of your choice to access the desired service.

The screenshot displays the KSU Campus Intranet website. At the top, there is a navigation bar with the KSU logo on the left and links for MyKSU, A-Z Index, Directories, Campus Maps, and a search box. Below this is a secondary navigation bar with links for About KSU, Academics, Admissions, Athletics, Campus Life, Research, and Global. The main content area is titled "Campus Intranet" and is divided into several sections: "Campus Sites" (listing various university departments and services), "NetID" (with links to NetID.Kennesaw.edu and account activation), "Fiscal Services" (listing financial and administrative services), and "Online Resources" (listing various digital tools and systems). A "QUICK LINKS" sidebar on the right provides direct access to KSU Search, A-Z Index, Phone Directory, Campus News, Campus Events, Academic Colleges, and Campus Maps.
