

Using the Classroom Document Camera with Remote Learners

- Login to the instructor workstation in the front of the classroom
- On the digital display panel (figure 1), select PC as the source to display

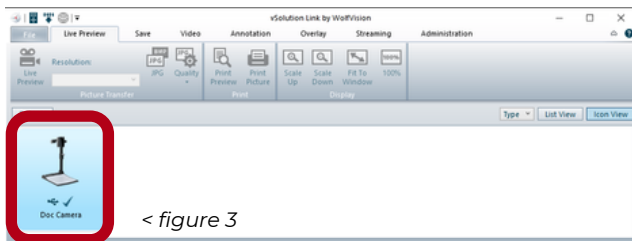

< figure 1

- On the PC desktop, select the vSolution Link icon (figure 2)

< figure 2

- When the vSolution window opens up, click on the document camera icon

< figure 3

- The document camera will now be shown in a window on the computer desktop and can be shared when using the conferencing tool of your choice (e.g., Microsoft Teams or Collaborate Ultra)
